INT Cerner Regression Brand

Bridge with Upper Back on Swiss Ball

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup
Begin sitting on a ball with your feet on the floor.

Movement
Walk your feet out away from the ball so that you are in a bridge position with your hips and shoulders parallel to the floor. Maintain this position.

Tip
Make sure to your hips stay level as you roll out on the ball, and keep your abdominals tight throughout the exercise.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.
